- 100,000 vital record images were converted from microfilm to TIFF images.
- Real Property grantor/grantee index and images were made available via the Internet to trusted title companies.
- A user-friendly cashing system that produces accounting reports was implemented.

Organizational Summary

COUNTY CLERK-RECORDER - The Clerk-Recorder is an elected official who, with the administrative staff, directs the activities of the department in satisfying the needs of the public regarding the recordation of various real property documents, filing of birth, death and marriage records, issuing marriage licenses, and filing Fictitious Business Names and other documents.

RECORDER FUNCTIONS - This division assists the public and title companies in recording documents pertaining to real property transactions. Included in this process is the examination of documents to determine recordability, recording and indexing documents, and optically imaging all recorded documents for storage and retrieval.

CLERK FUNCTIONS - This division is responsible for issuing marriage licenses and performing wedding ceremonies. It also registers Notary Publics, Process Servers, Professional Photocopiers, and Unlawful Detainer Assistants; files documents related to Fictitious Business Name registrations and Environmental Impact Reports; and produces copies of recorded documents and issues birth, death, and marriage certificates.

INFORMATION SERVICES - This division provides technical and user support for all automated systems within the department. Staff provides short and long term automation planning, systems installation, user training, systems maintenance, and telecommunications support.

FINANCIAL SERVICES - This division is responsible for the fiscal integrity of the Department through the assessment of funding needs and fiscal issues that may impact Department activities. This includes budget planning, development, monitoring and implementation; oversight of expenditures and revenues; purchasing and deposit of funds.

Ten Year Staffing Trend:

Ten Year Staffing Trend Highlights:

- Four additional limited term positions were added mid-year in FY 2001-02 to accommodate workload increases for the recording of documents. This brings our staffing compliment to 100 employees, the same level as 1999.
- The Office has been able to maintain a continued minimum staffing level due to enhanced automation and work process review.

Budget Summary

Plan for Support of the County's Strategic Priorities:

The Clerk-Recorder's Office will continue to review costs of operation, maximize service to the public, and contribute revenues in excess of expenses to the County General Fund.

Changes Included in the Recommended Base Budget:

Four (4) additional limited term positions were added to the Clerk-Recorder in FY 2001-02. These positions support an increase in workload due to low housing interest rates, resulting in an unanticipated volume of home purchases/recordings. The cost of these positions are fully offset by recording fee revenue.

Requested Budget Augmentations and Related Performance Results:

Unit/Amount	Description	Performance Plan	Ref. Num.
Clerk Functions Amount:\$ 125,653	A County Archives Program is needed to preserve historical documents and make records available.	Establish program by January 1, 2003; Increase public visitation by 75%.	059-001

(1) Requirements include prior year encumbrances and expenditures. Therefore, the above totals may not match FY 2001-2002 projected requirements included in "At a Glance" (Which exclude these).

Detailed budget by expense category and by activity is presented for agency: Clerk-Recorder in the Appendix on page 577.

Highlights of Key Trends:

- Unanticipated revenue from recording fees increased in FY 2001-02 by approximately 33% due to extremely low housing interest rates which increased housing purchases and property recording. This revenue trend is

dependent on the housing market. Recording fee revenue in FY 2002-03 is projected at an increased level, however the Clerk-Recorder's Office will be carefully monitoring this trend to ensure that property recording remains stable and that revenue projections will be met.
